

SCIENTIFIC ERRORS IN QURAN

Anonymous

4y

Warning, long answer for brave people

1. THE EARTH IS FLAT

The Earth in the shape of pita bread according to Allah

And it is He who spread the Earth, and placed therein firmly set mountains and rivers. He causes the night to cover the day. - Quran 13:3

And the Earth, we spread it and cast therein firmly set mountains. - Quran 15:19

He who made for you the Earth a bed and the sky a ceiling and sent down rain from the sky. - Quran 2:22

.... and at the Earth, how it is spread out? - Quran 88:20

And Allah has made for you the Earth as a carpet - Quran 71:19

The Earth, according to Muslims is like a bed, or like a carpet. Spread out. For some Muslims who value science, they say this is either a) just a metaphor b) wrong translation from Arabic c) the new age mainstream theories about flat earth are used to support the Quran.

And over that flat pita bread Earth, there is a dome-shaped ceiling. From which, Allah sends down the rain. Some scholars believe, that the Earth WAS indeed flat.

2. EIGHT TYPES OF LIVESTOCK

He produced for you from the grazing livestock eight mates. - Quran 39:6

They are eight mates: Of the sheep two and of the goats two [....] and of the camels two and of the oxen two Quran 6:143–144

The Quran lack the geographical knowledge of different types of livestock. People in early Arabia didn't have for example deer as a livestock. While other cultures were pretty much dependant on deer at the same time.

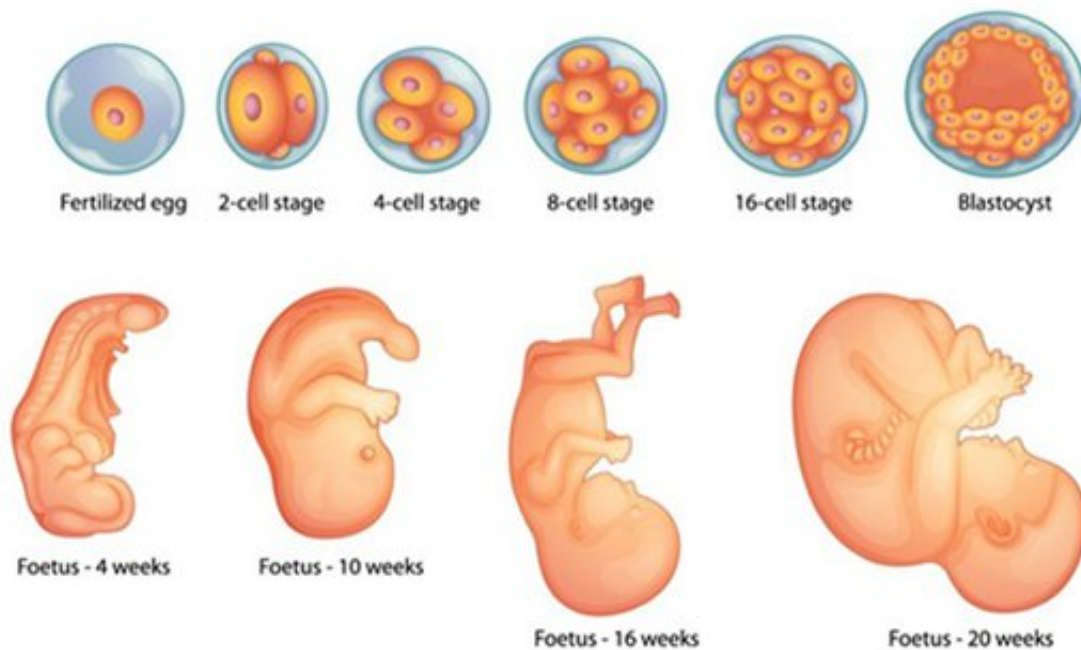

Not you deer. Sorry.

3. FLESH IS FORMED AFTER BONES

Bology and Embryology, go to hell. Quran knows better. Right?
Right ???!

Then We made the sperm into a clot, and We made the clot into a lump, and We made from the lump bones, and We covered the bones with flesh. Quran 23:14

Human Embryonic and Foetal Development

4. SPERM BECOMES BLOOD

Then We made the sperm into a clinging clot. Quran 23:14

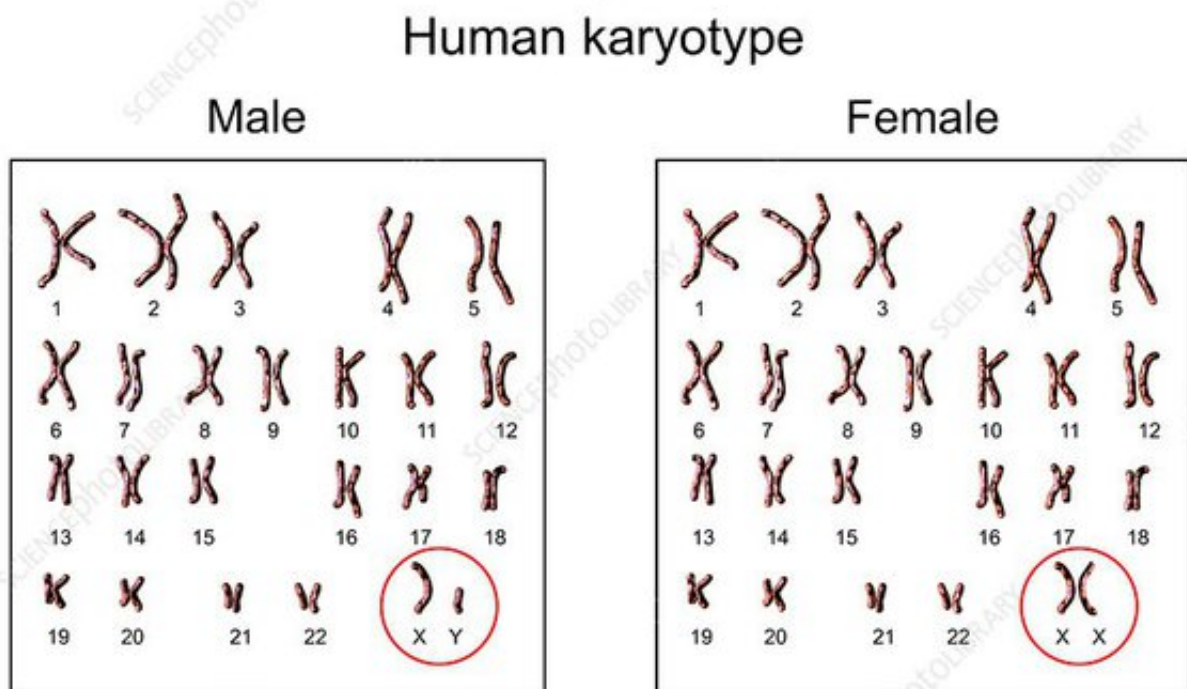

Created man from the clot of blood. Quran 96:2

We already know that the sperm fertilizes the egg in the female body, which creates a zygote - a cell that grows within the uterus & becomes an embryo. This is not a clot of blood. Some ancient people, physicians, might have made an autopsy and saw something that reminded them of a clot of blood because it didnt have the shape of a human yet. The sperm doesn't become blood. The sperm carries half of the human's DNA, while the egg holds the other half of the human DNA. As soon as the new human life is created, then the blood is formed within it's body.

This also might mean that during the times of Muhammed, miscarriages were very common, due to lack of medical knowledge and the embryo during a natural miscarriage is being flushed from the body with a lot of blood. The ancient people saw it, the ancient people reported it.

5. GENDER DETERMINATION

Was he not a drop of sperm? Then he was a clinging clot, then Allah created and formed him, then he made of him two mates, male and female. Quran 75:37

Hadith is much clearer here at explaining.

The Prophet said “At every womb Allah appoints an angel that says “ O Lord! A drop of semen. O Lord! A clot. O lord! A little lump of flesh. “ Then if Allah wishes to complete its creation the angel asks “Will it be a male or female a wretched or a blessed, and how much will his provision be? And what will his age be?” So all that is written while the child is still in the moder’s womb. Sahih Bukhari 1:6:315

So the lump of flesh is formed first and then Allah, if he wants the lump to live, he gives it a sex. Today, we all know that gender is determined

since the time of conception - male sperm containing chromosomes and female eggs containing chromosomes. The gender is determined by the way these chromosomes combine with each other at that time they meet. Which is at time of conception - when sperm meets the egg. So the "lump of flesh" is already programmed to form into a male or female already at the stage of being a "lump of flesh" even though it doesn't visibly look like boy or girl yet. It doesn't even look like a human at that stage, but it still has human DNA, so.....

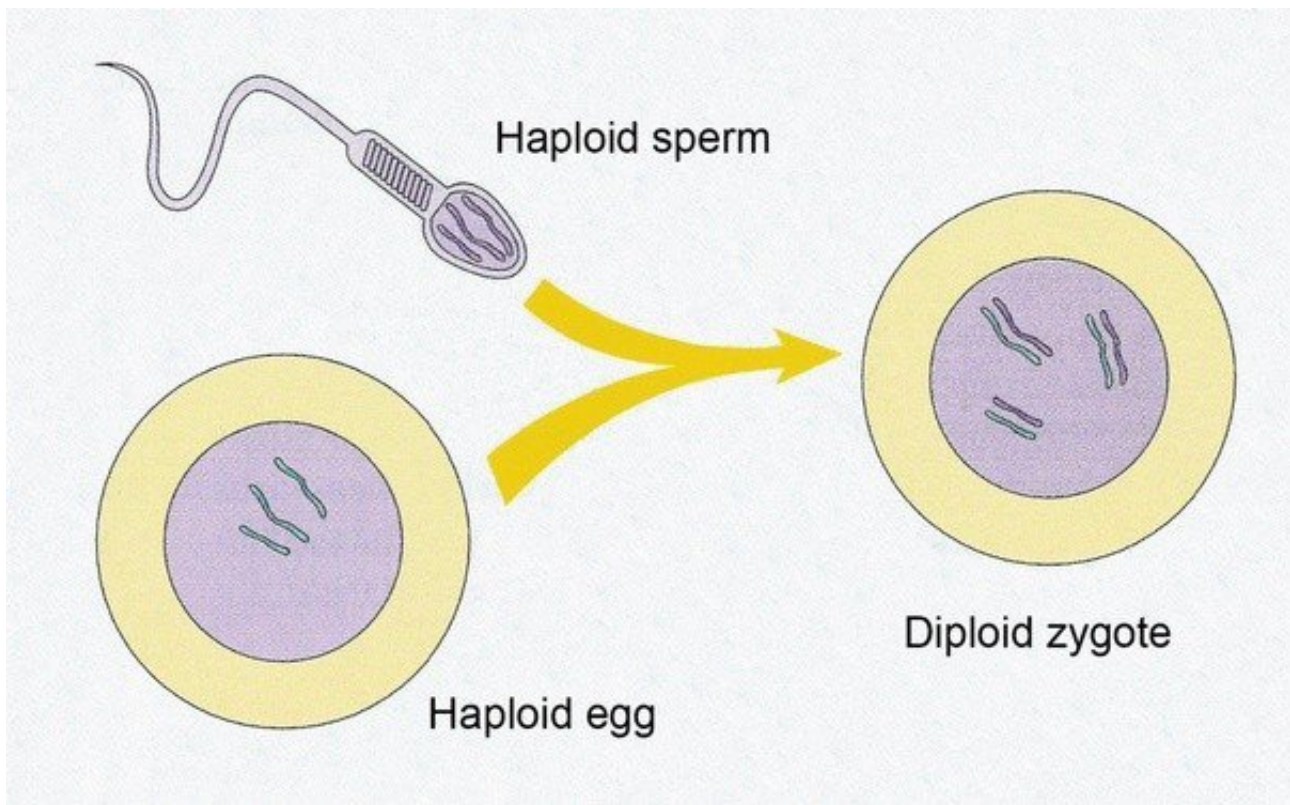

6. SPERM = HUMAN

They believe that humans are literally in every male's ballsack. And it starts forming in a female body (the sperm)

We already know that the sperm is just a carrier of a half of the human DNA and RNA. Meanwhile female egg is a container of another half of the human DNA and RNA. We can start talking about a human form only after the zygote is created - when the sperm entered the egg, its tail broke off and the egg encapsulated itself with the sperm together, forming a cell. Sperm is not a human. Nor is the female egg. They are both a human potential at best.

We placed him as a drop in a firm lodging. Quran 23:13

Was he not a drop of semen? Quran 75:37

Another verses: 77:20, 86:6, 80:19, 76:2

7. SPERM COMES FROM THE BACKBONE AND RIBS

Now I don't feel like I need to explain to people in this day and age, that sperm comes from the testicles.

He is created from a gushing fluid emerging from between the backbone and the ribs. Quran 86:6–7

The text is confusing, it goes: ***between the backbone and al-taraibi.***

The consensus for "al-taraibi" is the ribs. Although there are other opinions such as : woman's breasts, woman's vagina, aorta,....

8. MILK BETWEEN FILTH AND BLOOD

We give you drink from what is in their bellies - between excretion and blood - pure milk. Quran 16:66

Milk production has nothing to do with excretion. Food is chewed and processed in the animals body and then the nutrients are used for it's baby - the calf. Similarly, like a human female eats her food and the hormones after she gave birth give command to her body to process the nutrients and make milk to breastfeed the baby. It has nothing to do with the woman's blood or excretion!

9. MILK IS PURE AND AGREEABLE

Allah says, that milk from livestock is pure and agreeable

We give you drink from what is in their bellies - between excretion and blood - pure milk, palatable for drinkers. Quran 16:66

In fact, most cow's milk is infected with bacteria. That's why it needs to be pasteurized. This can be improved by giving the cow better circumstances and better environment. But clean milk without any

treatment is very hardy achievable. Pure milk is dependant on human actions and the cow itself. 70% of Humans are lactose-intolerant. And it has been that way for over 10.000 years. Even if the milk is the purest, if you are lactose intolerant, it wont be “agreeable” with your body.

Worldwide prevalence of lactose intolerance in recent populations (schematic)

10. 11. PLANTS AND FRUITS COME IN PAIRS

...and from all of the fruits He made two mates. Quran 13:3

... who created all the pairs of what the Earth produces. Quran 36:36

We know today that not all plants and fruits come necessarily in two pairs. Some plants reproduce asexually, like dandelions, which reproduce asexually by seed. Fungi reproduces asexually. Plus, there is no such thing as fruits coming in pairs. Yes, there are some species of fruit trees that are sexually determined, but not all and of course never their fruit. There is no female apple and male apple.

Dandelions be like : “eh... did you just assume my gender?!”

12. EVERYTHING COMES IN PAIRS

And of all things we created mates. Quran 51:49

In reality, we have many animals that a) don't mate, b) don't have two sexes.

We have those who reproduce by themselves - asexually. We have species that have two sexes. We also have species that have more than two sexes. Or one sex, etc.

New Mexico Whiptail (lizard) comes inly as a female. For example. And is able to reproduce by herself, without mating.

Other animals don't have sexes, or they are hermaphrodites -individuals have both the organs.

"I don't need no man" - New Mexico Whiptail

13. ALL LIFE IS IN COMMUNITIES

And there is no creature on Earth or bird that flies with its wing except [that they are] communities like you. Quran 6:38

Two interpretations exist for this verse: A) that all creatures live in communities (which isn't true, since many animals are completely solitary, like bears or sea turtles for example) or B) that all creatures have a group, a species (also wrong-many animals form by evolving and become something different, human also has an impact - for example making a dog from wolves and even making specific breeds of the dogs)

This guy does not like to hang out with his mates.

14. BARRIERS BETWEEN SEAS

...one fresh and sweet and one salty and bitter, and He placed between them a barrier and prohibiting partition. Quran 25:53

Allah puts a barrier between sweet and salty water:

...and placed between the two seas a barrier? Quran 27:61

He released the two seas, meeting: Between them is a barrier neither of them transgress. Quran 55:19–20

How does the Quran explain the river deltas - there the river flows into the sea and mixes together? How does the Quran explain brackish waters? Brackish water is a mix of sweet and salty water. Typically occurs in river deltas, where the sea water mixes with the river water, where we can see some freshwater fish and seawater shellfish hanging around at the same spot? There are also some lakes with brackish water.

This picture and similar ones are often used by Muslim apologists as a “proof” of the barriers between the two seas. This has been debunked a long time ago. What we can see here is two waters of different qualities and chemical parameters meeting. They do slowly mix with one another down below, below the surface. We can also observe similar views when the sweet water from melting icebergs slowly fuse into the salty sea. Eventually, they do mix together.

15. ALLAH STEERS SHIPS

It talks about sailing ships mostly.

It is your Lord who drives the ship for you through the sea that you may seek of His bounty... Quran 17:66

That means, that Allah transports us from point A to point B. And if we adjust the sails to go against the wind, then we are going basically against Allah’s wind.

16. ALLAH HOLDS THE BIRDS UP THE SKY

How do birds fly? They flap their wings and split the air, carrying their light weight bodies thanks to their dull bones, through the air with their special body shape. Right?

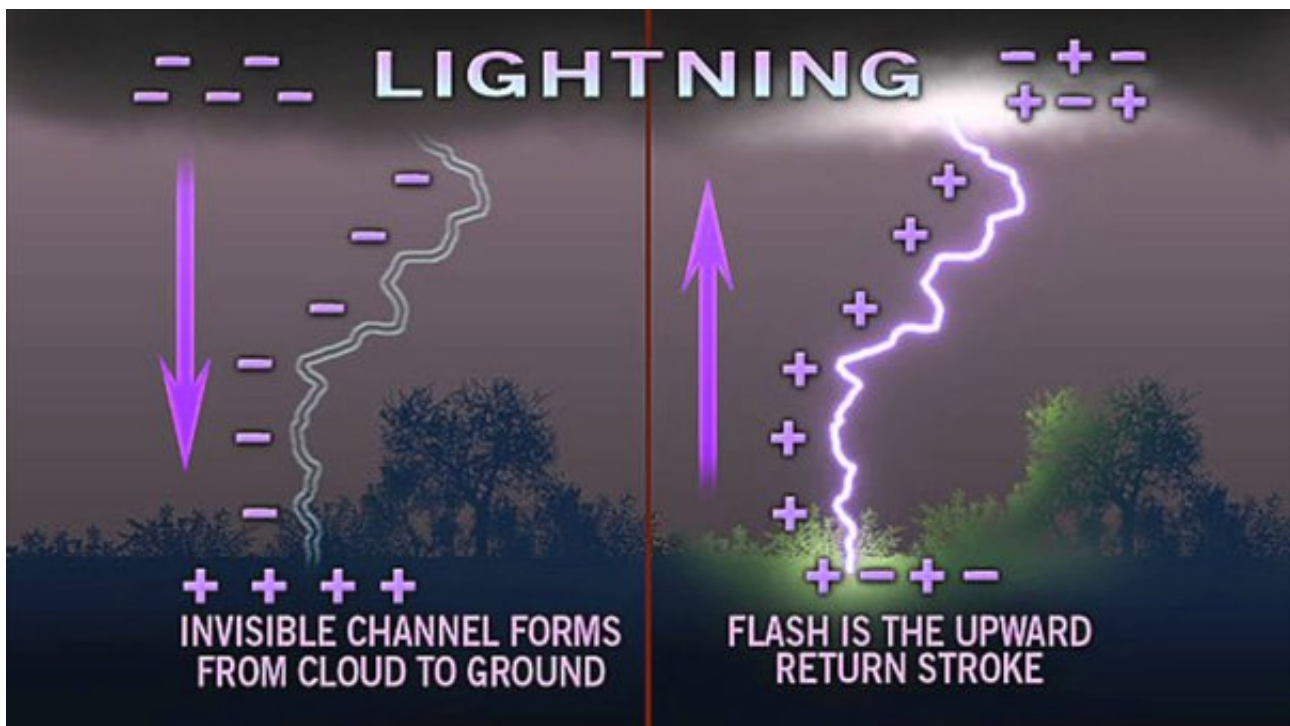

Do they not see the birds controlled in the atmosphere of the sky? None holds them up except Allah. Indeed in that are signs for a people who believe. Quran 16:79

This looks like 7th century people in Arabian deserts were fascinated by how do birds actually fly, and they just made it into magic. Allah must be doing that. Right?

17. ALLAH SENDS THUNDERBOLTS

Allah sends thunderbolts to smite people.

Lightning forms in the clouds by the interaction of hail and rain. Transferring electrons onto each other. And those electrons interact with the electrons on the ground below.

He sends thunderbolts and strikes therewith whom He wills while they dispute about Allah; and He is severe in assault. Quran 13:13

18. MOUNTAINS OF HAIL

Allah sends down mountains of hail. And he strikes with them, well those whom he wants to strike.

He sends down from the sky, mountains wherein is hail and He smites therewith whom He wills and averts it from whom He wills. Quran 25:48

Most hail doesn't even harm anyone. Hail is not a divine ammunition. If you live in Arabia though, and you receive larger hail, you might want to believe there is someone who sends them down onto you.

19. RAINWATER IS PURE WATER

In concentration camps during the Holocaust, the prisoners were deprived not only from food but also from drinking water. Some prisoners couldn't handle it anymore and drank rainwater. They died few days later.

...and We send down from the sky pure water. Quran 25:48

Rainwater gets contaminated in the atmosphere by gasses - natural or man-made, it doesn't matter.

20. ALLAH SENDS RAIN FROM THE SKY

Allah sends water from the sky Quran 24:48

Allah sends rain down from the sky Quran 43:11

Sent down rain from the sky Quran 2:22

Yeah, that's why the meteorologists and radars can predict rains

21. WINDS BRING GOOD TIDING

If you live in the desert, you appreciate rain. Because it barely rains.

And it is He who sends the wind as good tidings before His mercy (rain)... Quran 25:48

People who live in areas where it rains nonstop for days, dealing with massive floods, would call “good tidings” anything but a blessing.

22. ALLAH SENDS WINDS

And it is He who sends the winds. Quran 25:48

I don't need to explain how winds are in a constant cycle and how sun heats the air and there are points with high air pressure and low air pressure and the air moves from that point to another one or do I?

23. ALLAH DRIVES CLOUDS

Do you not see that Allah drives clouds? Then He brings them together... Quran 24:43

Do I really need to explain how this works in reality?

24. YOU CAN'T PASS THE SKIES

The author of Quran would be in shock, if he saw the space travel that we have today. Because he claims, you can't do that.

O the tribe of jinn and of men, if you are able to pass through the confines of heaven and earth, pass through them! You shall not pass except the authority. Quran 55:33

25. ALTITUDE NARROWS CHESTS

...whomsoever He desires to lead astray, He make his chests narrow, tight, as if he were climbing up the sky. Quran 6:125

Allah makes the unbeliever's chests narrow and tight as if he/she was climbing up the sky.

In fact, your chest doesn't become narrow and tight when climbing. Like on the mountains around the Mecca, where the Mohammed probably climbed. The air becomes thinner and its more difficult to breathe in high altitudes. It doesn't make your chest narrow.

26. MOUNTAINS WILL BE REMOVED

Say “My Lord will scatter them as ashes; And He will leave the Earth plain without any crookedness or curving... Quran 20:105–107

Does that need commentary? It implies that the mountains are objects that are placed on top of the Earth's surface. We all know today it is not like that.

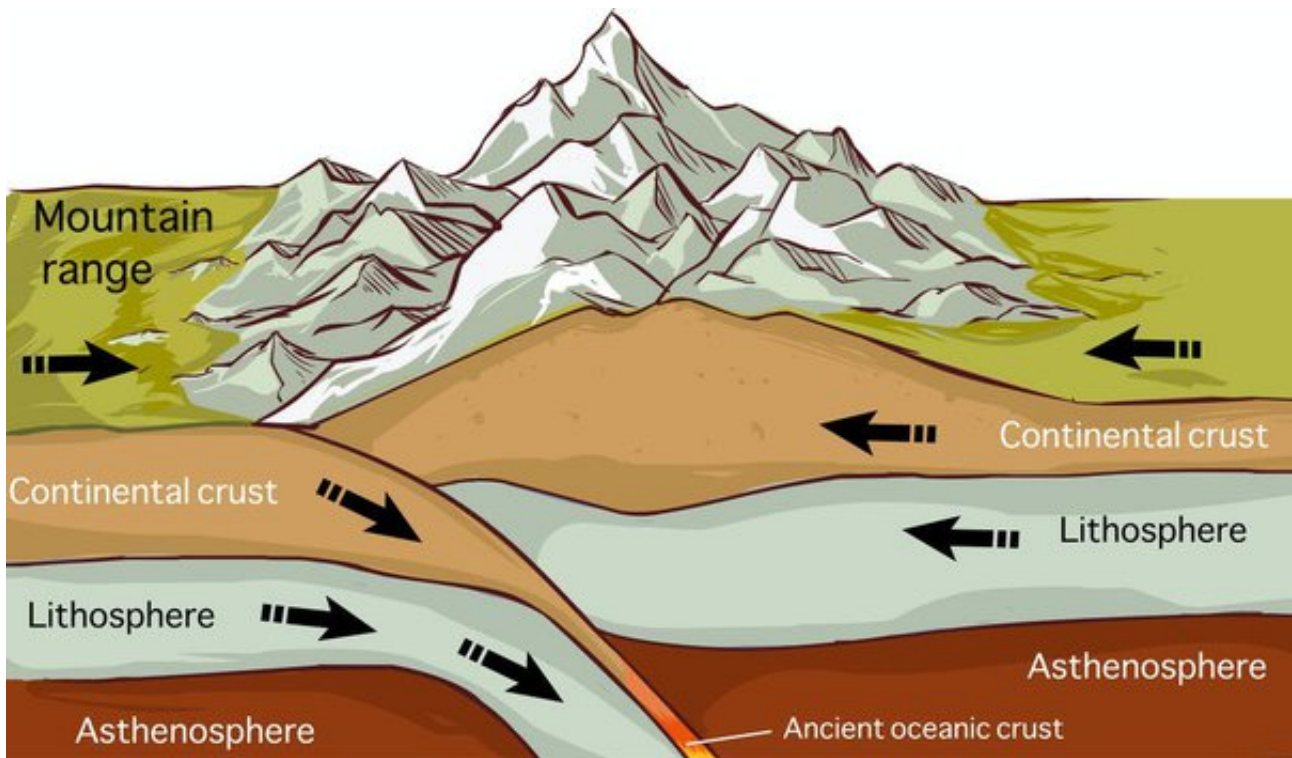

27. MOUNTAINS PREVENT EARTHQUAKES

***And He casts on Earth firm mountains, lest it shake with you.* Quran 16:15**

In fact many mountains cause earthquakes. If your Google search whether the mountains prevent earthquakes, all you find is pseudo-science websites, all pro-Muslim, Islamic websites. Not a single hint of any independent science source.

28. MOUNTAINS PLACED INTO THE EARTH

Quran tells us that the mountains were at some point placed on the Earth by Allah.

He placed into the earth firmly set mountains. Quran 31:10, 13:3, 16:15, 15:19

... and the mountains as pegs? Quran 78:7

29. HEAVEN WAS SMOKE

And he placed on earth the mountains... Then He directed Himself to the heaven while it was smoke and said to it and to the earth “Come [into being], willingly or by a compulsion.” They said “We have come willingly” Quran 41:10–11

I don't even know what to say

30. EARTH CREATED BEFORE SKIES

It is He who created for you all of that which is on the earth. Then He directed Himself to the heaven, and made them seven heavens, and He is knowing of all things. Quran 2:29 and also 41:10–12

This is also supported by multiple Hadiths

In reality the Earth came into existence after the outer space. After the Sun. After the galaxy.

31. SKY AND EARTH WERE JOINED

Have the unbelievers not considered the the heavens and the earth were a joined entity, and We separated them and made from water every living thing. Quran 21:30

I suggest studying the big-bang matter

32. THE SKY CAN BE FOLDED UP

Allah tells us that he will fold up the sky before the day of judgement with his right hand. And then create everything new.

On the day when We shall roll up the heaven as a scroll. Quran 21:104

... and the heavens will be folded in his right hand. Quran 39:67

The quran assumes that the sky is an object.

33. THE SKY COULD FALL APART

Allah tells us, that if the pieces of the sky would fall down, the unbelievers would think they are just clouds and wouldnt be scared, because they are disbelievers.

And if they saw a portion of the sky falling down, they would say : "A heap of clouds!" Quran 52:44

Once again, we know that the sky is not an object. Like the dome above the flat pita bread earth.

34. THE SKY WOULD BE STRIPPED AWAY

And when the sky is stripped away,... Quran 81:11

35. SKY HAS PILLARS

Since the Quran thinks that the sky is an object above us, some kind of ceiling, it needs pillars to hold it up.

He made the heavens (skies) without pillars that you can see. Quran 31:10, 13:12

The Islamic scholars are divided between

- A. The heaven has no pillars, wow!
- B. The heaven has invisible pillars, wow!

36. THE SKY IS A CEILING

The quran literally tells us two times that the sky is a ceiling

...who made for you the sky a ceiling... Quran 2:22

And we made the sky a protected ceiling/canopy Quran 21:32

There cannot be a crack in the gas. Because the sky is made of gas. It's not an object. And it is not protecting us, we see the falling meteorites burn down before they hit the earth, its not because they hit a protective ceiling or something.

37. THE SKY DOES NOT HAVE ANY RIFTS

The sky is a layers of gas in the atmosphere. It is not an object.

38. NO NORTHPOLE OR SOUTHPOLE

The author of the Quran doesn't understand the Sun and the Solar System.

Establish the prayer at the decline of the sun until the darkness of the night and at dawn. Quran 17:78

Start fasting when the white thread of dawn becomes distinct from the black of the night, and fast until sunset. Quran 2:187

These hours vary between places where you live. There are some places on Earth where you for a long periods have light and the sun doesn't go down. So during Ramadan, Muslims in some countries fast for a longer time than others. Quite unfair. Well, and those who live in Nordic countries where the sun doesn't go down, they are told to just stick to Mecca times. Allah didn't think about that?

39. THE SUN INDICATES SHADOWS

The sun doesn't make shadows. Lack of Sun is what makes shadows. Shadows aren't static they move. And 7th century Arabians thought the sun is what tells the shadow where to go.

Have you not considered your Lord how He stretches out the shadow. And if He willed, he could have made it still. Then we appointed the sun as a guide to it. Quran 25:45–46

Then we withdraw it to ourselves gradually. Quran 16:48

40. THE SUN SINKS INTO A MUDDY SPRING

Quran tells us that the character named Dhul Qarnayn, whose identity we don't know but he seems like a rip-off of Alexander the Great, roams the earth and reaches the place of sun setting.

And they ask you about Dhul Qarnayn. Say “I will recite you about him a report. Quran 18:83

He find the sun setting into a muddy spring

Until, when he reached the setting place of the sun, he found it setting in a muddy spring and he found near it a people. Quran 18:86

Some english translations have it stated differently ...he found it AS IF setting in a muddy spring...

But in the original form, there is no equivalent to “as if”.

Today we know the sun sets by the Earths rotation

41. THE RESTING PLACE OF THE SUN

While we know the Sun is a star and it doesnt go anywhere, according to Quran, the Sun travels the dome above the flat eatch and goes away to rest.

And the sun runs to its resting place. That is the determination of the Mighty the Knowing. Quran 36:38

Again, translators are embarrassed by this and try to translate it different ways such as “runs on its fixed place” or “runs his course for a period determined for him” or similar things that are not in the original scripture.

42. THE RISING PLACE OF THE SUN

Quran 18:19

The Quran believes the sun literally rises up from a place

43. DAY NIGHT SUN AND MOON

Quran doesn't know how things work in the Solar system. Quran thinks day and Sun are separate things

Quran 91:1–4

44. THE NIGHT IS A VEIL

The night covers the day. Quran 13:3

Night comes, from somewhere, covers the day and the day goes away. Today we know that darkness is just an absence of light. It cannot come. We have darkness whenever the source of light is covered.

45. NIGHT AND DAY ENTER EACH OTHER

Night and day are entities that enter each other.

Quran 31:29

46. NIGHT RAPIDLY CHASES THE DAY

Quran 7:54

47. THE MOON WAS SPLIT INTO TWO

Quran 54:1

He split the moon and that was the sign of the end to come. If the moon was ever split into two, this would be seen from every place on Earth. No other civilisations reported anything similar the ancient Romans, Greeks, Persians, Egyptians, Incans, Mayans, NO ONE

48. THE MOON IS A LIGHT

Today we know that the moon doesnt shine. It is just illuminated by the sun and we can see it from the Earth during the nighttime, because we are observing it from a dark spot.

Quran 10:5, 71:16, 25:61, 75:8

It just keeps repeating itself.

49. MOON WILL DARKEN

Quran 75:8

It tells us the moon will go dark before it joins the Sun. Which is unreal. 1. the moon doesnt shine 2. the moon appears to be shining because of the Sun illuminating it 3. if the moon goes away to join the sun, it will be closer to the sun, and it will not darken.

50. MOON AND SUN WILL JOIN

Quran 75:9

Unlikely. If the moon left the earth's orbit it would travel for many years. The moon would also burn up before it could ever touch the sun

51. THE SUN AND MOON CANNOT TAKE OVER EACH OTHER

Yeah that's why we can observe the Solar eclipses right?!

Quran 36:40

52. THE MOON FOLLOWS THE SUN

Yes, it appears like that to 7th century people. but now we know that the moon orbits us and we together with the moon orbit the sun

Quran 91:1–2

53. THE SUN ORBITS THE EARTH

Today we know it is the opposite way.

Quran 36:37–40

54. ALLAH BRINGS THE SUN FROM THE EAST

Nobody needs to bring the sun. The sun appears at our specific location whenever your location gets turned towards the sun as the earth spins arounds. Allah in Quran didn't know that when people in Arabia have night, people on the opposite side have day.

The Quran even says that the Abraham claims the Allah brings Sun from the east. No other Abrahamic religion mentions that.

Quran 2:258

55. SEVEN EARTHS 56. SEVEN HEAVENS

Seven heavens: Quran 67:3, 65:12, 37:6, 41:12, 71:15, 78:12, 23:86, 23:17, 17:14, 2:29

Seven earths : Quran 65:12

57. STARS WILL FALL DOWN

Quran 81:2

The stars will fall down before the day of judgement. Quran also says that stars are little stars, objects, missiles, lamps. Today we know that stars are so gigantic, we can see them from very, very, very far away. They cannot fall on earth as they are billions of light years far away and they are way bigger than earth

58. STARS ARE NEAR

The nearest star is the sun. Allah doesnt know in Quran, that the Sun is a star.

Quran 37:6, 67:5, 41:12

There are seven heavens and the stars according to Quran are located in the closest heaven. The seven heavens are as a dome above the flat pita bread earth, layered on top of each other.

59. STARS ARE MISSILES

Stars are according to muslim Allah there for protection as missiles.

Quran 67:5–7, 37:6–10, 15:17–18

60. STARS ARE ADORNMENT

Quran 37:6, 67:5, 41:12

Lamps, lights, adormnent.

The apologists will try to tell you again “as if they were lamps” but that’s not how it is stated in the Quran

I think it is pointless to discuss with your friend. At this point I would consider him being my friend only because he sees an opportunity in converting me to his religion.

You see, they will try to take an advantage of you not being an Arabic speaker and try to solve everything questionable with “you need to read Quran in Arabic only” “it is a bad translation” , this is their normal tactic to deal with the flaws in front of non believers.

Even here there are going to be comments that this is the wrong translation, that it is not in arabic and similar crap. Seriously. Your friend is not your friend because he likes you. He wants you to come to his religion-

Haider Bassam

Works at Medical Doctors6y

There are no scientific findings in quran. However there are scientific mistakes. For example the embryological steps mentioned in quran are completely false like the bones form first then the flesh covers the bones afterwards . they basically describe the mentality of people of the 7th century. Another example is the flat earth and the fact that the sun moves through the sky and sits in a water lake in the west. How about the mountains that keep the earth from bending to its sides? Quran also says that god created everything from a male and female and that is scientifically inaccurate because many species reproduce asexually. Even the sexual reproduction of bacteria for example doesn't divide the individual bacteria into male and female. One bacterium can be done one day and a recipient the other day.

Originally Answered: What are some solid scientific mistakes written in the Quran?

-Quran 51:49 : "And of every thing We have created **pairs** : That ye may receive instruction."

Correction : Not all animals have pair, such as aphid, hydras, budding, Binary Fission, etc.

-Quran 86:6–7 : "He was created from a fluid, ejected, emerging from **between the backbone and the ribs.**"

Correction : Semen comes from the male Instruments, a very inaccurate statement coming from the Qur'an.

-Bukhari 4:483, 486 : "I used to sit with Ibn 'Abbas in Mecca. Once I had a fever and he said (to me), "Cool your fever with Zam-zam water, for Allah's Apostle said: 'It, (the Fever) is **from the heat of the (Hell) Fire**; so, cool it with water (or Zam-zam water).'" "

Correction : The most common cause of fevers is viral infections like influenza, as seen in a cold or sore throat. Most other fevers (in temperate climates) are from bacteria, which affect the respiratory system, bowels, urinary tract and intestines. Fevers in tropical climates are caused by protozoa (parasites larger than bacteria).

-Qur'an 13:3; 15:19; 18:7; 18:47; 19:6; 21:30; 35:40; 41:10; 43:10; 50:7; 51:48; 55:10; 78:6; 79:30; 88:20 : These verses tend to describe earth as **wide and spread out** as if it's flat.

Correction : Earth is obviously spherical.

- Qur'an 36:38 : "And the sun **runs into a resting place.**"

Quran 18:90 : "Until, when he came to the rising of the sun, he found it **rising on a people for whom we had provided no covering protection against the sun**"

Quran 18: 83–98 : "Until, when, he **reached the setting of the sun**, he found it to set in a **spring of murky water**"

Correction : There is not resting place for the sun (Quran 36:38). It is impossible because the size of the sun is much bigger than earth itself (Quran 18:90). The earth is round and the sun does not set in a spring of murky water (Quran 18:93–98).

-Quran 41:12 : "Then He ordained them **seven heavens** in two Days and inspired in each heaven its mandate; and We decked the nether heaven with lamps, and rendered it inviolable. That is the measuring of the Mighty, the Knower,"

Quran 67 : 3–5 : "**Who hath created seven heavens in harmony [commonly translated as "in layers"]**. Thou (Muhammad) canst see no fault in the Beneficent One's creation; then look again: Canst thou see any rifts ? Then look again and yet again, thy sight will return unto thee weakened and made dim. And verily **We have beautified the world's heaven [the heaven closest to the Earth] with lamps [also known as "stars"]**, and We have made them missiles for the devils, and for them We have prepared the doom of flame,"

Quran 71 : 15–16 : "See ye not how Allah hath created seven heavens in harmony, And hath made **the moon a light therein**, and made the sun a lamp ?"

Correction : Since the lowest heaven contains the stars, this is a problem. The moon is, at minimum, the same distance from earth as the stars are; at worst, the moon is farther from Earth than the stars.

-Quran 2 : 6-7 mentions that "As for the Disbelievers, Whether thou warn them or thou warn them not it is all one for them; they believe not. **Allah hath sealed their hearing and their hearts, and on their eyes there is a covering,**" , yet Quran 9 : 115 says "**It was never Allah's (part) that He should send a folk astray after He had guided them** until He had made clear unto them what they should avoid. Lo! Allah is Aware of all things," . Both of these verses are contradicting with each other.

-Quran 4:110 says "Yet whoso do evil or wrongeth his own soul, then seeketh pardon of Allah, **will find Allah Forgiving, Merciful.**" , but Quran 4 : 168 says "Those who disbelieve and deal in wrong, **Allah will never forgive them.**" . Both of these verses are contradicting with each other.

-Quran 2 : 253 says "Of those messengers, some of whom We have caused to excel others, and of whom there are some unto whom Allah spake, while **some of them He exalted (above others) in degree,**" , but Quran 2 : 285 says "We make **no distinction between any of His messengers,**" . Both are contradicting with each other.

-Quran 79 : 27-30 says "Are ye the harder to create, **or is the heaven that He built ? Which was created first** . He raised the height thereof and ordered it; And He made dark the night thereof, and He brought forth the morn thereof. **And after that He spread the earth,**" , but Quran 2 : 29 says "He it is **Who created for you all that is in the earth. Then turned He to the heaven, and fashioned it as seven heavens.** And He is knower of all things," . So which was created first : heaven or earth ? Both verses have contradicting answer.

So there you have it, the miracles of Al Quran.

Universe and Earth

1) The Sun is a Great Lamp, and the Moon Gives Light

Blessed be He Who has placed in the heaven big stars, and has placed therein a great lamp (sun), and a moon giving light. Allah, the Almighty, says: [Blessed be He Who has placed in the heaven big stars, and has placed therein a great lamp (sun), and a moon giving light.] (Al-Furqan: 61)

And, [And We have made (therein) a shining lamp (sun).] (An-Naba': 13)

This verse explains Sun has its own light whereas Moon reflects the light of Sun.

2) Sun and Moon revolving in an orbit

(And he is the one who created the night, daylight, sun and the moon, all swimming in an orbit). (Quran, The Prophets: 33)

3) The Mountains as stabilizers for the Earth

"And the mountains He has fixed firmly, (To be) a provision and benefit for you and your cattle." (Surat An-Nazi'at (Those Who Pull Out): 32-33)

Humans and Embryology

1) Who makes foetus laugh and weep?

In a very significant verse in surat Al-Najm Allah says about him self: "And that He it is who maketh laugh, and maketh weep," (Quran 53:43)

This verse contains a very nice scientific indication about the lately-discovered fact that foetus has facial expressions while he is in his mother's womb, without being taught to do so.

2) Development of Embryo

We created man from an extract of clay. Then We made him as a drop in a place of settlement, firmly fixed. Then We made the drop into an alaqah (leech, suspended thing, and blood clot), then We made the alaqah into a mudghah (chewed substance)... 1 (Quran, 23:12-14)

In 1981, during the Seventh Medical Conference in Dammam, Saudi Arabia, Professor Keith L. Moore said: "It has been a great pleasure for me to help clarify statements in the Quran about human development. It is clear to me that these statements must have come to Muhammad from God, because almost all of this knowledge was not discovered until many centuries later. This proves to me that Muhammad must have been a messenger of God."

What are the scientific errors in the Quran?

The most important thing that made me leave islam is leaving the biased ignorance and blindly believing in cringy, corny desparate Muslim apologists who will go to any lower level to defend islam. I used to blindly support them and think yeah they are crushing, himiliating apostates, Christians and other atheists in debate. but i ignored the fact that, When i was Muslim i did no research on islam by myself. then one day i was reading quran and found out chapter 6:125 which says that allah guides whoever he wills and misguides whomever he wants. I was thinking why would allah misguide Someone? Does not allah want us to accept islam and pray salat?

I asked other Muslims they said that the verse means Allah lets people get misguided if they choose the path. But i asked them, that the verse literally saying allah misguides whoever he wills. It does not say that allah lets someone get astray if they choose this path. It does not say that allah only misguides bad Muslims either. it says allah misguides whoever he wants. That can be good muslim or bad Muslim. So if allah is so illogical or lunatic that he will misguide a Muslim for no reason but guide an evil person to islam, Then what is the guarantee that he won't send me to hell but in heaven after death? What if just like how allah misguides certain people to not follow islam, Allah also doing a prank with us with this religion? Lets assume allah exist, Nobody seen allah. And in quran, Allah's mood, description of creation changes multiple times. Allah orders to do very evil filthy jihads on quran. how can you believe a god like that? Then i stopped blindly believing in Muslim apologists and started doing research by myself with arabics learning. So many convert Muslims will tell you that they studied bible, torah, Geeta, puran and other books and then read the quran and found out Islam is the only true religion. But this is only nothing but taqya to decieve people. Want reasons why its not true religion?

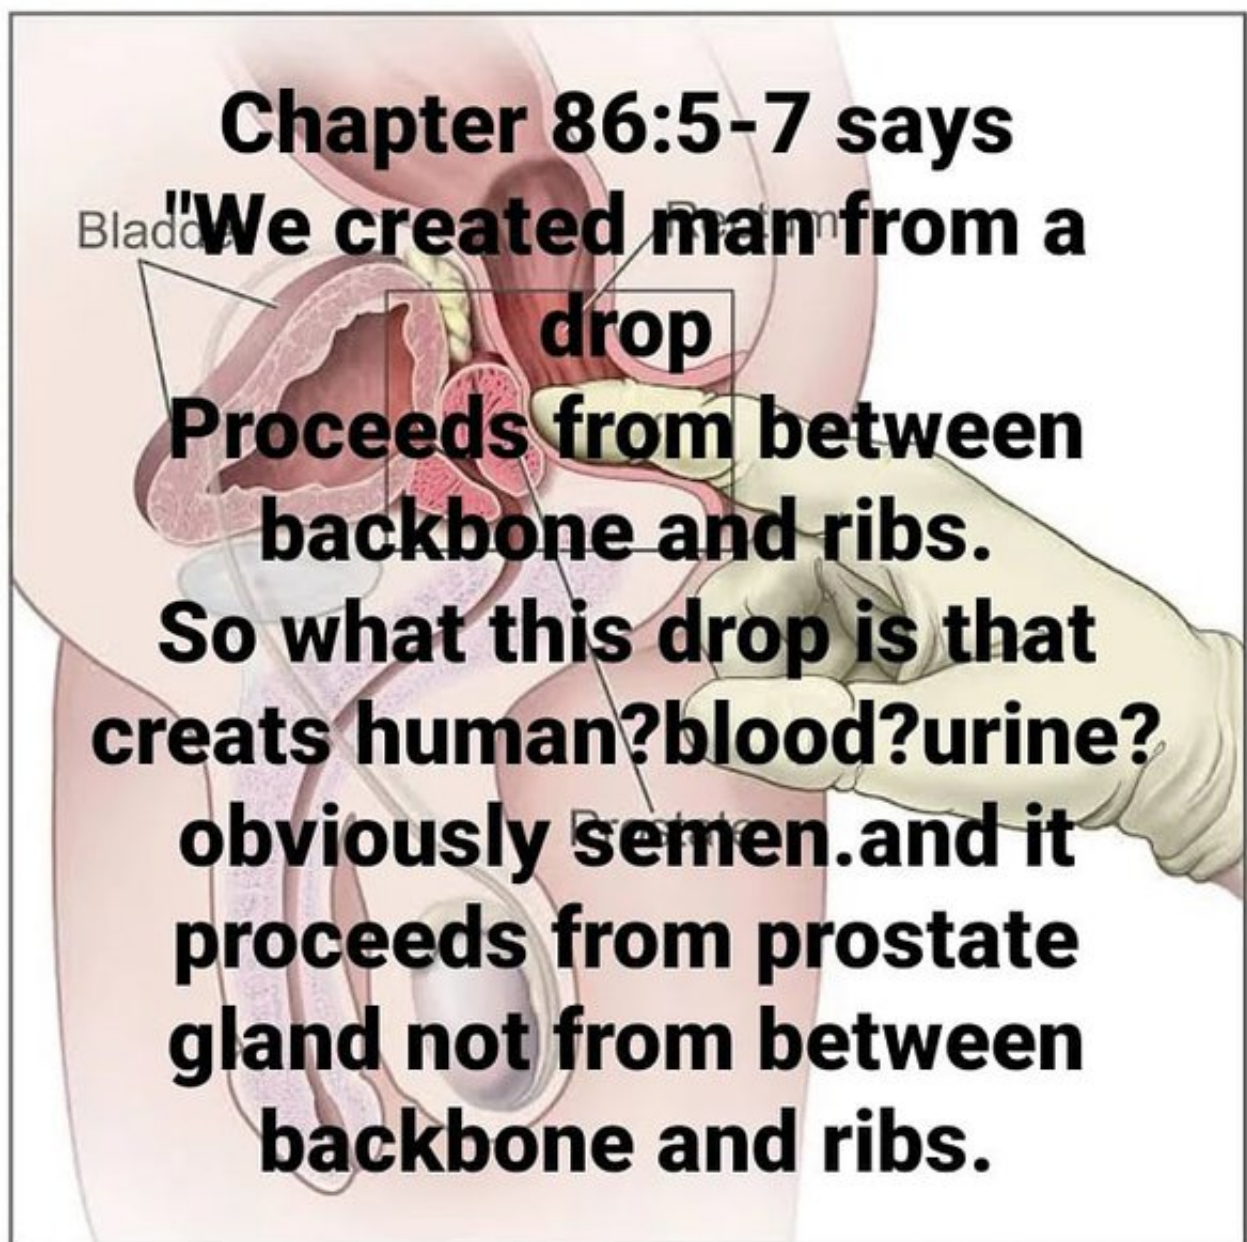

I was a muslim and die hard fan of Zakir naik for a decade. Since i am a native arabic speaker, Zakir could not decieve me for long time. Look at Chapter 3:54 of quran, Surah al imran says that "Allah is the best of deievers or fraudster". Which clearly proves allah maybe lying that he will send Muslims to heaven/jannat. Maybe they will be sent to hell no matter how much they practised islam.

Scientific mistakes in the quran:

chapter 86:5–7 says “let man see what they are created from.They are created from a drop ejected which proceeds from between backbone and ribs”

The verse here is talking about semen.We all know that sperms are created in

testicles which mixes with seminal fluid which then goes to prostate and then becomes semen.

As you can see clearly that prostate is in pelvis.very far away from backbone and ribs.And none of these organs are located anywhere near backbone or ribs. And semen proceeds from this organ.So its a big scientific mistake.

Chapter 79:30,allah created earth as egg nest shape/spread out.

Zakir claims that Dahaha is derived from arabic word Duhiya which means "egg of an ostrich".

Lie! Duhiya means "the place in desert where an ostrich lays egg", because the ostrich spreads its feet wide when laying eggs. Dahaha is derived from the word Daha which means "spread out" or "flattened". "ha" is a suffix meaning "it", which is a refer-back to the object being spread out. Here is the proof from Edward William Lane's Arabic-English Lexicon:

دحو

1. دَحَا, (Ṣ, Mṣb, K,) first pers. دَحَوْتُ, (Ṣ,) aor. يَدْحُو, (Mṣb, K,) inf. n. دَحْوٌ, (Ṣ, Mṣb, K,) *He spread; spread out, or forth; expanded; or extended;* (Ṣ, Mṣb, K;) a thing; (Ṣ;) and, when said of God, the earth; (Fr, Ṣ, Mṣb, K;) as also دَحَى, (Mṣb, K,) first pers. دَحَيْتُ, (K in art. دحى,) aor. يَدْحَى, inf. n. دَحَى: (Mṣb, and K in art. دحى:) or *He (God) made the earth wide, or ample;* as explained by an Arab woman of the desert to Sh: (TA:) also, said of an ostrich, (Ṣ, TA,) *he expanded, and made wide,* (TA,) *with his foot, or leg, the place where he was about to deposit his eggs:* (Ṣ,* TA:) and, said of a man, *he spread, &c., and made plain,*

أُدْحَى, (Ṣ, K,) [originally أُدْحَوِي, of the measure أَفْعُول from دَحَيْتُ, but said in the Ṣ to be of that measure from دَحَوْتُ, the dial. var. دَحَيْتُ not being there mentioned,] and أُدْحَى and أُدْحِيَّةُ and أُدْحَوَةٌ, (K,) *The place of the laying of eggs,* (Ṣ, K,) *and of the hatching thereof,* (Ṣ,) of the ostrich, (Ṣ, K,) *in the sand;* (K;) because that bird expands it, and makes it wide, with its foot, or leg; for the ostrich has no [nest such as is termed] عُش: (Ṣ:) pl. أُدْحَاج (TA in the present

earth was never spread out.its not a carpet or water that you can spread in floor.For those who don't know English properly

Search for a word

spread

/sprɛd/

verb

gerund or present participle: **spreading**

1. open out (something) so as to extend its surface area, width, or length.

"I spread a towel on the sand and sat down"

Similar:

lay out

open out

unfurl

2. extend over a large or increasing area.

"rain over north-west Scotland will spread south-east during the day"

Similar:

grow

increase

escalate

وَيُمْسِكُ السَّمَاءَ أَنْ تَقَعَ عَلَى الْأَرْضِ
إِلَّا بِإِذْنِهِ ط إِنَّ اللَّهَ بِالنَّاسِ لَرَءُوفٌ رَحِيمٌ

٦٥

(22:65) Have you not seen how Allah has subjected to you all that is in the earth, and the vessels that sail in the sea by His command,¹¹³ and it is He Who holds back the sky that it may not fall on earth except by His leave? Surely Allah is Most Gentle, Ever Compassionate to people.

113. Here “the heaven” implies the whole of the universe above and below the earth where everything is held in its own place and sphere.

وَهُوَ الَّذِي أَحْيَاكُمْ ثُمَّ يُمِيتُكُمْ ثُمَّ

Recite
يُحْيِيكُمْ ط إِنَّ الْإِنْسَانَ لَكَفُورٌ

٦٦

Look at this funny verse. Sky is atmosphere and the outer space. How can allah hold the sky so that it doesn't fall on the earth? it means the person written in quran believed that atmospheres are heavy grabbable objects and stars, moon, sun all are few kilometers above the atmosphere and allah is holding them so that these things don't fall on earth's surface. 😂😂 The quran writer in 113 saying it implies the whole of the universe above and below the earth where everything is held in its own place and sphere. I would agree on that if the verse said that. The verse doesn't say everything in the universe is held in its own place. It says **“It is he who holds back the sky so that it doesn't fall on earth”**. How can every matter in the universe fall on earth if allah doesn't hold them? 😂😂 It doesn't make any sense. very poor taqyya.

also look in quran chapter 41:9–11

(41:9) Tell them, (O Prophet): “Do you indeed disbelieve in Him and assign compeers to Him Who created the earth in two days? He is the Lord of all beings of the Universe. (41:10) (After creating the earth) He set up firm mountains on it, blessed it,¹¹ and provided it with sustenance in proportion to the needs of all who seek (sustenance).¹² All this was done in four days.¹³ (41:11) Then He turned to the heaven while it was all smoke.¹⁴ He said to the heaven and the earth: “Come (into being), willingly or unwillingly.” They said: “Here we come (into being) in willing obeisance.”¹⁵

Earth was not created in 2 days. It took about 5–10 million years for earth to form. You can search in google and see by yourself. also the verse 10 says allah placed firm mountains on earths surface and apportioned its means of sustances in 4 days which is also false. Because evolution is a theory that is also fact and evolution of living creatures including trees and multicecular speciss took a illion years to evolve. Also, The 9th verse breaks all the rules of physics. Mountains were not sent from the sky and farmed in ground. There is no proof, evidience for this claim. its completely fairy tale story. Look at verse 11, That says after creating earth and everything on it, Allah turned to heaven and it was all smoke. Famous liar Muslim apologist Sheikh uthman ibn faruq claimed that its nebular hypothesis mentioned in this verse. But nebular hypothesis doesn't say that earth

already existed when the universe was all smoke. Quran chapter 27:18 says ants come across valley of other ants and warn them to bide in homes quickly or solomons army will crush them unknowingly!! What kind of nonsense is this? anyone can make this kindergarden childrens cartoon stories. How can a divine book sent from god have this rubbish? Where is the proof that it was sent from allah?

Muslim apologists bring chapter 21:30 that says "Heaven and the earth were joined together and we separated them" and say its a scientific miracle. But lets forget that chapter 65:12 says there are 7 heavens and which heaven chapter 21:30 is about, Nobody knows. It might be talking about god, angels kingdom in different universe.

Also heaven and earth joined together as one entity doesn't necessarily mean it was singularity. Singularity was a point where everything was in form of energy. Big bang theory doesn't say that earth and sky was joined together. It says everything was packed in a point in form of singularity with no mass or light on it." and we separated them" it means Allah separated earth and heaven from that entity. But we know that big bang doesn't say earth and heaven were separated from singularity because earth or heaven did not even exist in that period. Non of these things happened So quran has so many scientific mistakes but no miracle at all. Chapter 96:2 of quran says human babies are created from clinging blood clot

[Contextual examples](#) / [Category](#) / [Related Words](#)

علق - Translation and Meaning in Almaany English Arabic Dictionary

عَلَقَ : - جُلْطَةٌ دَمَوِيَّةٌ

- blood clot; thrombus

عَلِقَ (فعل) : - عَلِقَتْ بِ: حَبِلَتْ

- become pregnant

تم إغلاق الإعلان بواسطة Google

عَلَقَ (فعل) : - عَلِقَتْ بِ: حَبِلَتْ

Want to see more scientific mistakes in quran?Some uneducates abdul may claim that Zygote is blood clot. No its not.its neither any clinging clpt.Zygote is a single cell ready to divide in mytosis cell division process. it will later turn into ambryo. Zygote is not any kind of blood clot.Its a single cell. No connection with blood. So Muslims can ignore as much as they want but this is the truth.

Originally Answered: What are some solid scientific mistakes written in the Quran? The moon's light is not the one reflected from sun, but is it's own light according to **Quran 10.5**: *He it is Who appointed the sun a splendour and the **moon a light**, and measured for her stages, that ye might know the number of the years, and the reckoning. Allah created not (all) that save in truth. He detaileth the revelations for people who have knowledge....*The sun sets in a muddy pool according to **Quran 18.86**: *Till, when he reached the setting-place of the sun, he found it **setting in a muddy spring**, and found a people thereabout. We said: O Dhu'l-Qarneyn! Either punish or show them kindness.....*Semen is originated from between backbone and ribs according to **Quran 86.6-7**: *He is created from a drop emitted- Proceeding from **between the backbone and the ribs**...the muscular system of the fetus is formed after the skeletal system according to **Quran 23.14**:*Then We made the sperm into a clot of congealed blood; then of that clot We made a (foetus) lump; then we made out of that lump bones **then (not and) clothed the bones with flesh**; then we developed out of it another creature. So blessed be Allah, the best to create!. But in reality, both form simultaneously....the fresh water and sea water never mix according to **Quran 25.53**: *It is He Who has let free the two bodies of flowing water: One palatable and sweet, and the other salt and bitter; yet has He made **a barrier between them**, a partition that is forbidden to be passed...there are mountains in the sky from which hailstones come, according to **Quran 24.43**: *Do you not see that God moves the clouds gently, brings them together, piles them up, and then you can see the****

*rain coming from them. **He sends down hailstones from the mountains in the sky.** With them He strikes or protects from them whomever He wants. The lightening can almost take away the sight.*

These are some solid scientific mistakes in Quran

What are the scientific errors in the Quran?

First of all I must say after reading this thread , that muslims are just so heavily brainwashed , I already knew this for a fact , but this only recalled it , first of all lets clear some things , no one is allowed to use wiki or any other random Internet website , just for the fact that most information on the internet is vandalised , also u cannot bring up sources from random mauvies or self proclaimed religious heads , only sceintific evidence from researches and sceintiests who are experts in their field , this way information is true and sceintifically approved , so I will start by highlighting some of the mental tricks these muslim apologists use or phycological games they play:

1. They will give u hundred of metaphorical interpretations of one text which they take from some random illeterate mauvis on some random website (because they say arabic is complex) , so let me debunk this fact , first of all texts at that time when quran was written , were written in a poetic way as arabic is such a language , so they made it extremely vague , so that people can make their own interpretations , but linguists say that although arabic is hard to translate , most direct translation made today are much accurate to what the original text meant , these translations come from reading and understanding of how abjads came into existence and by research of early or ancient arabic texts , which also take into consideration the vague or should I call self understanding aspects of the language (like vowel points) , while many modern giographical dialects of the language could make hundred

translations , they are not accurate to the original meaning , that's why I would much more trust on an proper translation of Quran by a proper group of sceintiests , rather than random mullas and maulvis , which unknowingly a lot of times contradict each other (something for which muslims criticise bible) .

2. They always try to twist the original text or topic taking it slowly into a whole another conversation , and then site bs references , they don't keep the conversation straight forward or explain a text simply , they take hundreds of half meanings from many random websites to prove ur point wrong , they can't site a singular solid correct website , and if the other person does the same , they call their sources islamaphobe , as I said they will try to twist the text , give wrong sources and call u out if u even do something that according to them is always islamaphobe.
3. While there is this rigid view that their is only one quran or atleast only one version , if we see historically , quran itself isn't the direct word of Muhammad as it was first started as a chain of oral tradition but later written down , while it was being written , it also took a lot of references from other religious texts which muslims often refuse , again as time goes on , muslims branch and so does quran , though today their is a major group of muslims who worship one Version only , you cannot refute the others , as they are also versions of the original , often the maulvis who defend Islam take several selective references and interpretations from other versions but say only one version is true , this is done to dilute the original meaning and the conversation as a whole , also quran is not some holy book , it's just the limited knowledge of the people of that time about the world and around them , also they site several philosophical evidences for their imaginary claims in quran , rather than actual enictodal evidence .
4. Also on many occasions they straight out denie the tremendous advances of science (also historical evidences)and blindly beleive in Quran for the sole fact that it's recited by Almighty Allah himself , this can be explained as their main driving believe , because of which they want to proof everything wrong in their one book which runs their whole religion as true , simply because they don't want to accept the biggest facts that their main belief , the Allah is wrong.
5. They obviously come as big fat hypocrates as have been proved by me above , incels and religious physcophaths at instances , going as far as telling themselves as slaves of god's , its not my

hate because of which I am writing this , but my concern for such a huge population brainwashed by a single book for their whole lives .

6. They also do not want to accept science is better than a medieval age made up belief that says to oppress women , they don't want to accept they have the most number of terrorist groups and least number of academic achievements in the modern day , they don't want to accept that their rulers invaded innocent ppl , wiped out cultures and raped women and blinded children from a young age .
7. There are enough scientific errors in the Quran to demonstrate that it is not of divine origin. For example, the Quran closely follows the Bible regarding creation, except that it does not separate the six-day creation story (Genesis 1:1–2:4a) from the earlier creation story in which Adam was created from moist earth (Genesis 2:4b-25). In both holy books, Adam was the first human on earth. This is, of course, quite contrary to science, which has established that humans gradually evolved from more ancient hominid species, with no one individual who was the first human on earth.

Surah 41:9–11 says that God first created the earth, then placed mountains on it and “determined therein is [creatures] sustenance”, finally turning his attention to the cosmos while it was still “smoke”. Science tells us the the earth was created long after the heavenly bodies.

The Quran also closely follows the Bible regarding a world-wide Flood, which is contrary to science, which says both that such a flood is impossible and that the geological evidence shows that it never happened. Some apologists claim that, unlike the Bible, the Quran does not actually say the flood covered the whole earth. This is not only an unusual reading of the surahs concerned with the Flood but also contrary to science — a local flood can never rise higher than the world’s oceans. Moreover, Surah 23.27 commands Noah to take on board the Ark two of each type of animal, which would be pointless unless the whole world would be under water. Surah 71:26 makes the extent of the flood quite clear:

Surah 71:26 (Saheeh International Translation): And Noah said, “My Lord, do not leave upon the earth from among disbelievers an inhabitant.

Surah 21:33 says that the celestial bodies float in orbit across the sky:

And it is He who created the night and the day and the sun and the moon; all in an orbit are swimming.

Similarly, Surah 36:38 says that the sun runs its course towards a stopping point, but we know it is the earth that moves and that there is no stopping, no stopping point:

And the sun runs towards its stopping point. That is the determination of the Exalted in Might, the Knowing.

Surah 18:86 says he followed the setting sun to see it set in a muddy or hot spring. Apart from the fact that the sun *does not* set in a spring, you could head towards the sun but never arrive where it 'sets':

Until , when he reached the setting of the sun, he found it setting in a spring of dark mud, and he found near it a people ...

Surah 54.1–3 even has the moon being split in two — not allegorically, but physically.

Surah 86.6–7 shows that Muhammad misunderstood where semen is produced:

Surah 86.6–7: He was created from a fluid, ejected, emerging from between the backbone and the ribs.

Surah 23:10-14 says that a baby's bones form before its muscles, which is a scientific error.

8) Surah 27:88: And you will see the mountains and think them solid, while they (the Mountains) drift like passing clouds. The Work of Allah, Who perfected all things. He is indeed well aware of what you do.

That is what the Mountains are for:

Surah 16:15: And He (Allah) has affixed into the earth mountains standing firm, lest it (the Earth) should shake with you (the Human); and rivers and roads, that you may guide yourselves.

Surah 21:31:We(God and the Angels) set firm mountains in the earth lest it(the Earth) should shake with them(the Humans), and We(God and the Angels) placed therein(on the Earth) broad highways for them(the Humans) to pass through, that they may be guided.

Surah 31:10:He(Allah) created the heavens without any pillars that you may see, and cast firm mountains in the earth lest it(the Earth) should shake with you(Human), and He(Allah) has scattered in it(the Earth) every kind of animal. And We(God and the Angels) sent down water from the sky and caused every splendid kind of plant to grow in it(the Earth).

Now this and some other surahs are cited when saying oh see quran had sited sceintific phenomenon , much before sceince itself , for such ppl , let me tell one thing , these are mentioned in a poetic and not in a sceintific manner , several sceintific theories were believed by ancient humans , not just Islam , even bible and geeta has them which are much older than islam , sceince proves things through the sceintific process and evidence not on basis of god's claim , several sceintific ideas binded with superstitions were known in earlier times , for eg , alchemy which gave birth to chemistry so these bogus claims make no sense and have been debunked anyway.

What are the scientific errors in the Quran?

There Is No Scientific Error In QURAN.

Why?

-Because Allah Said That.

Who Is Allah?

-The Main Author Of Quran.

What Is Quran?

-Quran Is Word Of Allah.

Why Quran Is The Word Of Allah?

-Because Allah Said That.

Where Did Allah Say That?

-In Quran.

How Can I Know That Quran Has No Scientific Error?

-Quran Said That.

This Circle Is Really Funny.

I Was Joking.

Quran Has A Lot Of Scientific Errors.

But Muslims And Muslim Scholars Says That There Is No Scientific Error.

I Told You Why They Believe That.

I Hope You Have Got Your Answer.

You Can Find The Errors From [Scientific Errors in the Qur'an](#)

Anonymous

7y

Sura 86:5-7

فَلْيَنْظُرِ الْإِنْسَانُ مِمَّ خُلِقَ خُلِقَ مِنْ مَّاءٍ دَافِقٍ يُخْرُجُ مِنْ بَيْنِ الصُّلْبِ وَالتَّرَائِبِ

"So let man observe from what he was created. He was created from a fluid, ejected, Emerging from between the backbone and the ribs."

Sperm does not come from between the backbone and the ribs. It is produced in the testicles and stored in the epididymis. The other fluids are produced in the prostate, seminal vesicle, and bulbourethral glands.

Sura 2:258

أَلَمْ تَرَ إِلَى الَّذِينَ حَاجَّ إِبْرَاهِيمَ فِي رَبِّهِ أَنْ آتَاهُ اللَّهُ الْمُلْكَ إِذْ قَالَ إِبْرَاهِيمُ رَبِّيَ الَّذِي يُحْيِي وَيُمِيتُ قَالَ أَنَا أُحْيِي وَأُمِيتُ قَالَ إِبْرَاهِيمُ فَإِنَّ اللَّهَ يَأْتِي بِالشَّمْسِ مِنَ الْمَشْرِقِ فَأْتِ بِهَا مِنَ الْمَغْرِبِ فَبُهِتَ الَّذِي كَفَرَ وَاللَّهُ لَا يَهْدِي الْقَوْمَ الظَّالِمِينَ

That's wrong. The sun doesn't move (يَأْتِي بِالشَّمْسِ).

Sura 18:86

حَتَّىٰ إِذَا بَلَغَ مَغْرِبَ الشَّمْسِ وَجَدَهَا تَغْرُبُ فِي عَيْنٍ حَمِئَةٍ وَوَجَدَ عِنْدَهَا قَوْمًا قَلِيلًا يُدَا الْقُرْنَيْنِ إِمَّا أَنْ تُعَذِّبَ وَإِمَّا أَنْ تَتَّخِذَ فِيهِمْ حُسْنًا

"Until, when he reached the setting of the sun, he found it [as if] setting in a spring of dark mud, and he found near it a people. Allah said, "O Dhul-Qarnayn, either you punish [them] or else adopt among them [a way of] goodness."

You can't travel to the setting of the sun. This place does not exist because the earth is not flat and the earth rotates around the sun, not the other way around. Since this mystical place doesn't exist there are also not some people living there.

Sura 80:90

حَتَّىٰ إِذَا بَلَغَ مَطْلِعَ الشَّمْسِ وَجَدَهَا تَطَّلِعُ عَلَىٰ قَوْمٍ لَمْ نَجْعَلْ لَهُم مِّن دُونِهَا سِتْرًا

"Until, when he came to the rising of the sun, he found it rising on a people for whom We had not made against it any shield."

Same argument as before.

Does the Quran have scientific errors?

Does the Quran have scientific errors?

Yes.

For example,

Quran 15:26, Mohsin Khan: And indeed, We created man from sounding clay of altered black smooth mud.

Mankind is not made by clay or mud or whatever.

For example,

Quran 7:189, Mohsin Khan: It is He Who has created you from a single person (Adam), and (then) He has created from him his wife [Hawwa (Eve)], in order that he might enjoy the pleasure of living with her. When he had sexual relation with her, she became pregnant and she carried it about lightly. Then when it became heavy, they both invoked Allah, their Lord (saying): "If You give us a Salih (good in every aspect) child, we shall indeed be among the grateful."

Adam and Eve are not historical beings and womankind does not originate from her male counterpart. Both male human and female human originate from a community of males and females.

For example,

Quran 67:5, Mohsin Khan: And indeed We have adorned the nearest heaven with lamps, and We have made such lamps (as) missiles to drive away the Shayatin (devils), and have prepared for them the torment of the blazing Fire.

Shooting stars are not missiles to drive away the devils. They are space stuff entering into the atmosphere of the earth.

And so forth.

What error in the Quran do you find the most obvious?

For Muslim learning:

There are 4 basic categories of contradictions in the Qur'an:

1-Internal contradictions: Verses contradicting each other or the laws of logic:

2-External errors: Verses contradicting the facts of history or science.

3-Verses contradicting the earlier revelations

4-Further: Contradictions between Muslim Traditions and the Qur'an

Here are SOME NOTABLE ERRORS IN THE QURAN.....

Who was the first Muslim?

The first Muslim was Muhammad? Abraham? Jacob? Moses?

“And I [Muhammad] am commanded to be the first of those who bow to Allah in Islam,” (39:12).

“And this was the legacy that Abraham left to his sons, and so did Jacob; “Oh my sons! Allah hath chosen the Faith for you; then die not except in the Faith of Islam,” (2:132).

Who was the Last/Final Prophet?

Muhammad?

I can name more than five prophets in the Koran who came after Muhammad. Prophet Hud in Surat Al-A'raf 7:65-72, or Prophet Zul-Qarnain in Surat Al-Kahf 18:83-88, Prophet Zar ibn Kaab in Surat Al-

Furqan 25:38, Prophet Luqman in Surat Al-Luqman 31:1-15 and Prophet Shu'aib in Surat Al-Shuarah 26:176-190. These are listed in the Koran and obviously came after Muhammad.

The origin of calamity?

Is the evil in our life from:

Satan [Surah 38:41]?

Ourselves [Surah 4:79]?

or Allah [Surah 4:78]?

Can slander of chaste women be forgiven?

Yes [Surah 24:5],

No [Surah 24:23].

Abrogation?

"The words of the Lord are perfect in truth and justice; there is NONE who can change His words" (Surah 6:115).

Also see Suras 6:34, 10:64, and 50:28,29.

But then Allah (or Muhammad?) sees the need to exchange some of them for "better ones" (Suras 2:106, 16:101).

And it is not for ignorant people to question Allah because of such practices!

Let us Reason.

1) HOW CAN A DIVINE REVELATION BE IMPROVED
UPON????????????????????

2) IF DIVINE, WOULD IT NOT HAVE BEEN PERFECT FROM THE
START??????????

Suras 6:34, 6:115, 10:64 and 50:28,29 clearly says to Muslims, "No change can there be in the words of Allah" and that Allah cannot alter (or abrogate) his words."

So the Torah and Christian Gospels are correct, because Allah did verify this fact -

-

3) THIS CLEARLY MAKES THE MUSLIM QURAN FALSE!!!!!!!!!!!!!!,
BECAUSE IT CONTRADICTS ALLAH!!!!!!!!!!!!!!

There are many numerical contradictions in the Quran. God cannot make an error in doing simple calculations.

How many days did it take to create the Heavens and the Earth?

Quran-41:9 : Is it that ye deny Him who created the earth in Two Days ?

- Consider also the change of amount of days creation took, first from 6 days (Suras 7:54, 10:3, 11:7, and 25:59) and then it gets changed to 8 days (Suras 41:9-12).

Is someone not playing with a full deck?

- Allah can have a son. (Surah 39:4).

-Allah can't have a son. (Surah 6:101, and 25:2).

- All angels obey Allah. (Surah 16:49-50).

-Not all angels obey Allah. (Surah 2:34)

How many angels were talking to Mary?

When the Qur'an speaks about the annunciation of the birth of Jesus to the virgin Mary, Sura 3:42,45 speaks about (several) angels while it is only one in Sura 19:17-21.

- In Surah 19:19-22, the human Mary was told she would have an "immaculate conception," or be impregnated by Allah.

Yet, Surah 6:100-101 denies that Allah could have a son or daughter through mortals.

- Face Mecca while praying. (Surah 2:144). Face Jerusalem while praying.

Originally Muhammad instructed Muslims to face Jerusalem when praying; probably because Solomon established the practice of praying while facing Jerusalem (1 Kings 8:29, 30, 44; 2 Chronicles 6:21; Daniel 6:10).

Apparently, Muhammad believed at first that God wanted him to pray facing Jerusalem and he did so for nearly 16-17 months -at least while he thought that he could convert the Jews to his religion.

However, later, when the Jews rebuffed him Muhammad preferred to pray towards the Ka'ba in Mecca which, during this point in time, contained 360 idols.

TO RECAP :

QUESTION 1)

HOW CAN A DIVINE REVELATION BE IMPROVED UPON????????????????????

QUESTION 2)

IF DIVINE, WOULD IT NOT HAVE BEEN PERFECT FROM THE START???????????

QUESTION 3)

THIS CLEARLY MAKES THE MUSLIM QURAN FALSE!!!!!!!!!!!!, BECAUSE IT CONTRADICTS ALLAH!!!!!!!!!!!!

THE FACT THAT HE CHANGES HIS DECREE IS FACT THAT HE'S NOT PERFECT AND THEREFORE FALSE....
